

To our valued customers

6. November 2023

Middle East Conflict

Dear valued customer,

Another unspeakable war has broken out in the Middle East. We hope that the situation will soon restabilize. We disassociate ourselves from all forms of violence and our thoughts are with those affected.

With this letter, we would like to take the opportunity to confirm that Vogt AG Verbindungstechnik manufactures exclusively at sites in Switzerland and that supply of materials is not affected. The raw materials suppliers are carefully selected and mainly located in the EU.

If you have any questions, we will be happy to help.

Best wishes,

Vogt AG Verbindungstechnik
